Description

Throughout my professional career, I've helped connect people with amazing real estate opportunities! Whether you are a first-time homebuyer, a homeowner looking to sell, or a real estate investor, I have the time & expertise needed to assist you.

3 Personalize

ADD A PROFILE PICTURE

It's important to have an updated headshot of yourself to use as your profile picture. If your profile picture ends up being too big/small then you might have to resize the image to 170x170 pixels. To do this, simply open the picture as a file on your computer, right-click it, select "resize", and input the dimensions mentioned above.

ADD A PAGE COVER

You can be as creative as you want with your page cover. It could be a collage of homes you have sold, a photo of the city/town you do the most business in, or a custom graphic you create yourself! You can also find free-to-use professional photos on www.Unsplash.com

HOW TO CREATE YOUR PAGE COVER

It's easy to create a Facebook page cover when you use Canva. Canva is a FREE online design software with lots of premade templates that you can easily customize.

Visit www.Canva.com

Simply sign up with your email and then you can search for "Facebook cover" in the search bar. It will populate a bunch of pre-made templates you can choose from. Click the one you like the most and edit the information.

Click [HERE](#) to download an RMS cover you can start using right now. (You can always change it later!)

GET RID OF UNNECESSARY INFORMATION

You'll notice that your page has quite a few tabs, many of which you won't need for your business and will just distract the audience from the more important information.

To remove tabs, navigate to the "Settings" option on the left menu bar. Then choose "Templates and Tabs".

Tabs such as Shop, Offers, and Jobs can most likely be removed.

...AND THAT'S IT!

In Part 2, we will show you how to best use your Facebook Business Page now that you have it!

Until next time,
